**A Student's Introduction to English Grammar** Rodney Huddleston, Geoffrey K. Pullum

This groundbreaking undergraduate textbook on modern Standard English grammar is the first to be based on the revolutionary advances of the authors' previous work, *The Cambridge Grammar of the English Language* (2002). The text is intended for students in colleges or universities who have little or no previous background in grammar, and presupposes no linguistics. It contains exercises, and will provide a basis for introductions to grammar and courses on the structure of English, not only in linguistics departments but also in English language and literature departments and schools of education.
