# Designing Cisco Network Service Architectures (ARCH) (Authorized Self-Study Guide) (2nd Edition)

*Keith T. Hutton, Mark D. Schofield, Diane Teare*

## **Designing Cisco Network Service Architectures (ARCH) (Authorized Self-Study Guide) (2nd Edition)**

Keith T. Hutton, Mark D. Schofield, Diane Teare

*Authorized Self-Study Guide*

*Designing Cisco Network Service Architectures (ARCH)*

*Second Edition*

Foundation learning for ARCH exam 642-873

Keith Hutton

Mark Schofield

Diane Teare

*Designing Cisco Network Service Architectures (ARCH)*, Second Edition, is a Cisco®-authorized, self-paced learning tool for CCDP® foundation learning. This book provides you with knowledge of the latest developments in network design and technologies, including network infrastructure, intelligent network services, and converged network solutions. By reading this book, you will gain a thorough understanding of issues and considerations for fundamental infrastructure services, including security, network management, QoS, high availability, bandwidth use optimization through IP multicasting, and design architectures for network solutions such as voice over WLAN and e-commerce.

Whether you are preparing for CCDP certification or simply want to gain a better understanding of modular campus and edge network design and strategic solutions for enterprise networks such as storage area networking, virtual private networking, advanced addressing and routing, and data centers, you will benefit from the foundation information presented in this book.

*Designing Cisco Network Service Architectures (ARCH)*, Second Edition, is part of a recommended learning path from Cisco that includes simulation and hands-on training from authorized Cisco Learning Partners and self-study products from Cisco Press. To find out more about instructor-led training, e-learning, and hands-on instruction offered by authorized Cisco Learning Partners worldwide, please visit [www.cisco.com/go/authorizedtraining](http://www.cisco.com/go/authorizedtraining).

Keith Hutton is a lead architect for Bell Canada in the enterprise customer space. Keith still retains his certified Cisco instructor accreditation, as well as the CCDP, CCNP®, and CCIP® certifications.

Mark Schofield has been a network architect at Bell Canada for the past six years. During the past five years, he has been involved in the design, implementation, and planning of large national networks for Bell Canada's federal government customers.

Diane Teare is a professional in the networking, training, project management, and e-learning fields. She has more than 20 years of experience in designing, implementing, and troubleshooting network hardware and software, and has been involved in teaching, course design, and project management.

- Learn about the Cisco SONA framework, enterprise campus architecture, and PPDIIO network life-cycle approach
- Review high availability designs and implement optimal redundancy
- Plan scalable EIGRP, OSPF, and BGP designs
- Implement advanced WAN services
- Evaluate design considerations in the data center core, aggregation, and access layers
- Design storage area networks (SANs) and extend the SAN with various protocols
  
- Design and tune an integrated e-commerce architecture
  
- Integrate firewall, NAC, and intrusion detection/prevention into your network design
- Design IPsec and SSL remote access VPNs
- Deploy IP multicast and multicast routing
- Incorporate voice over WLAN in the enterprise network
- Utilize the network management capabilities inherent in Cisco IOS® software

This volume is in the Certification Self-Study Series offered by Cisco Press®. Books in this series provide officially developed self-study solutions to help networking professionals understand technology implementations and prepare for the Cisco Career Certifications examinations.

Category: Network Design

Covers: ARCH exam 642-873

### **From reader reviews:**

#### **Lanita Hill:**

Have you spare time for a day? What do you do when you have much more or little spare time? That's why, you can choose the suitable activity with regard to spend your time. Any person spent their spare time to take a go walking, shopping, or went to the actual Mall. How about open as well as read a book allowed Designing Cisco Network Service Architectures (ARCH) (Authorized Self-Study Guide) (2nd Edition)? Maybe it is to become best activity for you. You understand beside you can spend your time with your favorite's book, you can wiser than before. Do you agree with the opinion or you have additional opinion?

#### **Lou Bryant:**

Hey guys, do you really wants to finds a new book to learn? May be the book with the concept Designing Cisco Network Service Architectures (ARCH) (Authorized Self-Study Guide) (2nd Edition) suitable to you? The particular book was written by renowned writer in this era. Typically the book untitled Designing Cisco Network Service Architectures (ARCH) (Authorized Self-Study Guide) (2nd Edition) is the main one of several books this everyone read now. This specific book was inspired many people in the world. When you read this book you will enter the new dimension that you ever know previous to. The author explained their thought in the simple way, and so all of people can easily to be aware of the core of this e-book. This book will give you a lot of information about this world now. To help you see the represented of the world on this book.

#### **Donna Bohannon:**

You are able to spend your free time to study this book this e-book. This Designing Cisco Network Service Architectures (ARCH) (Authorized Self-Study Guide) (2nd Edition) is simple to deliver you can read it in the park, in the beach, train along with soon. If you did not have got much space to bring the printed book, you can buy the particular e-book. It is make you simpler to read it. You can save the actual book in your smart phone. So there are a lot of benefits that you will get when one buys this book.

#### **Marian Knight:**

On this era which is the greater particular person or who has ability to do something more are more treasured than other. Do you want to become one of it? It is just simple strategy to have that. What you need to do is just spending your time not much but quite enough to possess a look at some books. One of many books in the top list in your reading list is usually Designing Cisco Network Service Architectures (ARCH) (Authorized Self-Study Guide) (2nd Edition). This book that is qualified as The Hungry Mountains can get you closer in becoming precious person. By looking up and review this book you can get many advantages.
