For the Good of the Earth and Sun: Teaching Poetry (Heinemann/Cassell Language & Literacy S)

Georgia Heard

For the Good of the Earth and Sun is for teachers at all levels, especially for those teachers who feel anxious about introducing poetry to students.

Georgia Heard offers a method of teaching poetry that respects the intelligence of students and teachers and that can build upon their basic originality. She explores poetry from the inside as it is: a powerful and necessary way of looking at the world, and one of mankind's most durable inventions.

Her book provides detailed, organized information so that teachers themselves can begin to enjoy and feel knowledgeable about poetry, and, from there, pass those feelings on to their students. The author's text is supplemented by examples of students' work in original and draft form.
