**Starting Out with C++: Early Objects (8th Edition)** Tony Gaddis, Judy Walters, Godfrey Muganda &>

**NOTE:** You are purchasing a standalone product; **MyProgrammingLab** does not come packaged with this content. If you would like to purchase both the physical text and **MyProgrammingLab** search for ISBN-10: **0133441849**/ISBN-13: **9780133441840** . That package includes ISBN-10: **0133452255**/ISBN-13: **9780133452259** and ISBN-10: **013336092X**/ISBN-13: **9780133360929**. **MyProgrammingLab** should only be purchased when required by an instructor.

Tony Gaddis’s accessible, step-by-step presentation helps beginners understand the important details necessary to become skilled programmers at an introductory level. Gaddis motivates the study of both programming skills and the C++ programming language by presenting all the details needed to understand the “how” and the “why”—but never losing sight of the fact that most beginners struggle with this material. His approach is both gradual and highly accessible, ensuring that readers understand the logic behind developing high-quality programs.

In *Starting Out with C++: Early Objects*, Gaddis covers objects and classes early after functions and before arrays and pointers. As with all Gaddis texts, clear and easy-to-read code listings, concise and practical real-world examples, and an abundance of exercises appear in every chapter. This text is intended for either a one-semester accelerated introductory course or a traditional two-semester sequence covering C++ programming.

MyProgrammingLab for *Starting Out with C++* is a total learning package. MyProgrammingLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams—resulting in better performance in the course—and provides educators a dynamic set of tools for gauging individual and class progress. And, MyProgrammingLab comes from Pearson, your partner in providing the best digital learning experiences.
