What is leadership? Can it be explained with a simple dictionary definition? In *Integrity: The Core of Leadership*, authors Biju Michael and Richard Lochrie endeavor to explain a concept inherent to humanity as a whole: leadership. Is leadership merely the ability to convince others to do your will? Or is it something more, something that serves a higher purpose and greater good? Through meticulous research and interviews with many people currently in positions of leadership, the authors explore the diverse use of the word 'leader' throughout the course of history. Though people as different as Abraham Lincoln and Adolf Hitler have been considered 'leaders,' one thing separates the truly great leaders from all the rest: integrity. Ultimately, only leadership with integrity, based on a relationship between the leader and those who follow him in a quest to achieve the common good, can bring a bright future for all. What are the most dangerous pitfalls in the path of leadership? What are the support systems available for leaders at the top of the ladder? How can you lead to leave a positive legacy? Succinct discussions with examples from the lives of real leaders provided in the book will help leadership teams to work together to achieve meaning and true success in their individual and organizational lives.
