Testimonials: As an owner of cats throughout most of my life, I never really thought about the use of litter boxes until I moved from a house to my Condo recently. Because I've noticed the smell so much more, and the space is smaller, I began searching out an alternative. I bought this guide in the hopes that it could help remedy my dilemma. I'm so happy to say that so far, it is working just as stated. My cat is already on the second ring of the CitiKitty training seat and he's on his way to the next. This guide showed me exactly what I needed to do in order to get him there and I'm thankful for the relative ease of this transition. I really don't think I could have done this without the information received. I've had only two mistakes so far and they were both mine (gotta remember to leave the seat up).

From full details on preparation and patience, all the way up to cat & human training in a simple seven step process, this book makes the process all too easy. The writing is succinct & devoid of fillers and the authors are an obvious authority on the subject. Lastly, the illustrations were perfect for letting me see the training works and what I should be expecting. If anyone else is looking for a way to toilet train their cat & don't know what to do, I can wholly attest that this is the perfect manual for illuminating & training you in the most efficient manner possible. – E.
