Mastering Bitcoin: Unlocking Digital Cryptocurrencies Andreas M. Antonopoulos

Mastering Bitcoin is essential reading for everyone interested in learning about bitcoin basics, the technical operation of bitcoin, or if you're building the next great bitcoin killer app or business. From using a bitcoin wallet to buy a cup of coffee, to running a bitcoin marketplace with hundreds of thousands of transactions, or collaboratively building new financial innovations that will transform our understanding of currency and credit, this book will help you engineer money. You're about to unlock the API to a new economy. This book is your key.

This book will help you learn everything you need to know about decentralized digital money, which is one of the most exciting technical revolutions in decades. Just as the Internet has transformed dozens of industries - from media and entertainment to retailing, travel and many more - decentralized digital money, in the form of crypto-currencies, has the ability to transform the foundations of money, credit and financial services. It also has the power to transform other social activities and institutions that we don't usually associate directly with money, such as corporations, governance, voting and the law.

As the first successful digital currency, bitcoin is the natural starting point for anyone interested in decentralized digital money, its implications and applications. Mastering Bitcoin describes the technical foundations of bitcoin and other cryptographic currencies, from cryptography basics, such as keys and addresses, to the data structures, network protocols and the consensus mechanism ("mining") that underpin bitcoin. Each technical topic is explained with user stories, elegant analogies and examples, and code snippets illustrating the key concepts. The first two chapters offer a broad and accessible introduction to bitcoin that is intended for all audiences, from new non-technical users to investors and business executives seeking to better understand bitcoin. The remainder of the book dives into the technical details of bitcoin's operation and is aimed at professional developers, engineers, software and systems architects, systems administrators and technically-minded people interested in the inner workings of bitcoin and comparable crypto-currencies. Mastering Bitcoin is intended to be used as a reference book for technical professionals, as a self-study guide for bitcoin entrepreneurs, and as a textbook for university courses on bitcoin and digital currencies.

Bitcoin is still in its infancy, and yet it has already spawned a multi-billion dollar, global economy that is growing exponentially. Both new and established companies are adding bitcoin as a payment method, and investors are funding a flurry of new bitcoin and related startups. Mastering Bitcoin can help you become part of this vibrant new economy. The time to get started is now.

From reader reviews:

Louis Vasquez:

Spent a free time to be fun activity to do! A lot of people spent their sparetime with their family, or their friends. Usually they carrying out activity like watching television, planning to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Do you wish to something different to fill your personal free time/ holiday? Might be reading a book is usually option to fill your no cost time/ holiday. The first thing that you ask may be what kinds of e-book that you should read. If you want to try out look for book, may be the publication untitled Mastering Bitcoin: Unlocking Digital Cryptocurrencies can be good book to read. May be it could be best activity to you.

Johnny Allen:

People live in this new day time of lifestyle always make an effort to and must have the spare time or they will get wide range of stress from both way of life and work. So , when we ask do people have free time, we will say absolutely indeed. People is human not only a robot. Then we ask again, what kind of activity are you experiencing when the spare time coming to a person of course your answer will certainly unlimited right. Then do you try this one, reading books. It can be your alternative with spending your spare time, the book you have read will be Mastering Bitcoin: Unlocking Digital Cryptocurrencies.

Joan Jackson:

Many people spending their period by playing outside using friends, fun activity having family or just watching TV all day long. You can have new activity to invest your whole day by examining a book. Ugh, you think reading a book can really hard because you have to take the book everywhere? It ok you can have the e-book, delivering everywhere you want in your Mobile phone. Like Mastering Bitcoin: Unlocking Digital Cryptocurrencies which is keeping the e-book version. So , why not try out this book? Let's find.

John Kirk:

What is your hobby? Have you heard that will question when you got scholars? We believe that that concern was given by teacher to their students. Many kinds of hobby, Every person has different hobby. And you know that little person just like reading or as studying become their hobby. You need to understand that reading is very important along with book as to be the matter. Book is important thing to increase you knowledge, except your personal teacher or lecturer. You find good news or update in relation to something by book. Amount types of books that can you take to be your object. One of them are these claims Mastering Bitcoin: Unlocking Digital Cryptocurrencies.
