The Eastern approach to Feng Shui practice is timeless while from the Western perspective it is timely. Feng Shui is Chinese in origin while the casino game of craps is American in design. For the first time in print, the author advocates the use of this Eastern approach to enhance the player's chances of winning at casino craps. No book to date has addressed the influence and role of Feng Shui in craps or the subject of craps and Feng Shui together. The book has an affluence of new material heretofore not published, such as the concept of the Circle of Chi, the flow chart of Feng Shui concepts, which eventually leads to a craps table, the statistical validation of the number 7 coming out more often, after a die accidentally falls off the table, dice presetups, medical tenets germane to the Yin and Yang concept, Feng Shui of selected casinos, and much more. The superstitions that thrive at a craps table are presented with humor and insight. Learn about Chi management that is as pivotal as money management in augmenting one's chances of winning at craps.
