Grief and Loss: Theories and Skills for Helping Professionals Katherine Walsh

Every helping professional will encounter grief and loss in practice. This book introduces the key concepts related to grief and loss that are often omitted from professional training programs, preparing professionals to effectively aid clients encountering grief and loss.

A rich variety of case examples illustrate the essential theories and skills, allowing the readers to see how these theories will enhance in their own practice. Individual and programmatic responses to grieving people are included. Culture, spirituality, age, gender and other factors that influence grief reactions are discussed, preparing students to understand and work with diverse populations.

Each chapter includes exercises that encourage readers to apply the concepts learned and a companion website includes slides, suggested Internet sites and supplemental learning tools that connect students to current and credible resources beyond those included in the text.
