This book is about how powerful economic interests, which also control the government, the mass media and academic institutions, have used scientific thought-control to suppress freeenergy technology. The UFO is only the most glaring and remarkable example. A believer in man-made UFOs, who doesn't happen to share a belief in space aliens as the responsible-or even the partially responsible-parties, is made to feel uncomfortable when among those of a UFOlogy gathering, sort of like an Atheist at a fundamentalist Christian revival meeting, or a microbiologist at a witch-doctor convention.
