The ULTIMATE Acupuncture Wall Chart: Photographic Version, 36" by 36" This chart makes a beautiful and useful addition to the home or office of any acupuncture practitioner or enthusiast. Printed on high-quality, glossy stock at photographic resolution, and laminated for durability, you'll use and enjoy this chart for years to come. This chart is built on actual human photos, not cartoon illustrations. You'll see what the landmarks actually look like, not just what some illustrator imagined. Tired of wasting your time searching through minutia to find something important? We sorted through all the information typically included on charts-some is important to have readily available, and some is just extra filler. We kept the important clinical information you need and eliminated the fluff. Result: A less-crowded, more useful chart. A chart shouldn't confuse you. That's why every point is clearly labeled and color coded in English, using only internationally accepted names and abbreviations. We all know where CV 1 is, and probably never needle it anyway. So the naughty bits are covered up. No need for your patients (or their children) to be uncomfortable in your office. Are you tired of squinting at tiny or multiple charts? Our large, 36" by 36" (91 by 91 cm) makes it easy to see whatever you need to see.
