Ant Colony Optimization and Swarm Intelligence: 4th International Workshop, ANTS 2004, Brussels, Belgium, September 5-8, 2004, Proceeding (Lecture Notes in Computer Science)

1 With its fourth edition, the ANTS series of workshops has changed its name. The original "ANTS - From Ant Colonies to Artificial Ants: International Workshop on Ant Algorithms" has become "ANTS - International Workshop on Ant Colony Optimization and Swarm Intelligence". This change is mainly due to the following reasons. First, the term "ant algorithms" was slower in spreading in the research community than the term "swarm intelligence", while at the same time research in so-called swarm robotics was the subject of increasing activity: it was therefore an obvious choice to substitute the term ant algorithms with the more accepted and used term swarm intelligence. Second, although swarm intelligence research has undoubtedly produced a number of interesting and promising research directions, we think it is fair to say that its most successful strand is the one known as "ant colony optimization". Ant colony optimization, first introduced in the early 1990s as a novel tool for the approximate solution of discrete optimization problems, has recently seen an explosion in the number of its applications, both to academic and real-world problems, and is currently being extended to the realm of continuous optimization (a few papers on this subject being published in these proceedings). It is therefore a reasonable choice to have the term ant colony optimization as part of the workshop name.

From reader reviews:

Kathleen Strickland:

What do you concerning book? It is not important along with you? Or just adding material when you really need something to explain what the one you have problem? How about your time? Or are you busy individual? If you don't have spare time to complete others business, it is make one feel bored faster. And you have time? What did you do? Every person has many questions above. The doctor has to answer that question due to the fact just their can do this. It said that about publication. Book is familiar on every person. Yes, it is suitable. Because start from on jardín de infancia until university need this particular Ant Colony Optimization and Swarm Intelligence: 4th International Workshop, ANTS 2004, Brussels, Belgium, September 5-8, 2004, Proceeding (Lecture Notes in Computer Science) to read.

Clarence Anderson:

As people who live in often the modest era should be upgrade about what going on or facts even knowledge to make them keep up with the era which is always change and make progress. Some of you maybe may update themselves by looking at books. It is a good choice in your case but the problems coming to you is you don't know what kind you should start with. This Ant Colony Optimization and Swarm Intelligence: 4th International Workshop, ANTS 2004, Brussels, Belgium, September 5-8, 2004, Proceeding (Lecture Notes in Computer Science) is our recommendation so you keep up with the world. Why, because this book serves what you want and wish in this era.

Jason Cook:

Now a day those who Living in the era wherever everything reachable by talk with the internet and the resources inside can be true or not require people to be aware of each facts they get. How people have to be smart in obtaining any information nowadays? Of course the answer then is reading a book. Reading through a book can help men and women out of this uncertainty Information particularly this Ant Colony Optimization and Swarm Intelligence: 4th International Workshop, ANTS 2004, Brussels, Belgium, September 5-8, 2004, Proceeding (Lecture Notes in Computer Science) book since this book offers you rich information and knowledge. Of course the knowledge in this book hundred % guarantees there is no doubt in it as you know.

Zachary Connors:

A lot of people always spent their particular free time to vacation or even go to the outside with them family or their friend. Do you realize? Many a lot of people spent they free time just watching TV, or maybe playing video games all day long. If you need to try to find a new activity honestly, that is look different you can read any book. It is really fun in your case. If you enjoy the book that you read you can spent all day long to reading a guide. The book Ant Colony Optimization and Swarm Intelligence: 4th International

Workshop, ANTS 2004, Brussels, Belgium, September 5-8, 2004, Proceeding (Lecture Notes in Computer Science) it is quite good to read. There are a lot of folks that recommended this book. These were enjoying reading this book. If you did not have enough space to develop this book you can buy the particular e-book. You can more easily to read this book from a smart phone. The price is not too costly but this book provides high quality.
