**Every woman should own a copy of this book**

(it fits nicely in your purse, and hides well under the bed)

*How to Get ANY MAN to do ANYTHING You Want!* is a humorous--and effective--look at dating and how to get the men you want in your life and quickly & easily shoo away creeps, stalkers, disasters, and jerks who will cost you time, money, and sanity. It starts right in with how boys really learn about girls (it's not from their fathers) what this means to you, and how men end up thinking about women as a result. What most men actually think about women may surprise you.

Immediately following the intro we get you started describing to yourself exactly what it is you want, rather than allow you to wait for generic hot guy to come into your life. Most men won't ever approach you directly but instead will examine you, classify you, and file you away mentally for future interaction. They will try to understand the basics of your personality in a simple "push this button and this happens" manner to help them get past the initial awkwardness of approaching you and finding out how to make you interested in them.

This is all nice for "other girls" but if you want what you want and you want it now (without a lot of hassle, thank you very much) you need to be a bit more proactive and decide what men *you want* in your life and what ones you do not. You can never have too many "guy friends" to help you out of a jam, help you move, get rid of some jerk for you, or just hang out with when you need some comfortable male companionship. As to the hot guys you want to pay attention to you, it helps to know exactly what you like--and hate--and get that down so you can psychically attract exactly what you want while subconsciously pushing away anything that doesn't fit the bill. This book makes all of this simple, easy, and almost without effort.

Nothing is left to chance. If you have a man in your life (or want to get a good one) this book shows you how to make him think of you as a goddess as you get him to stop fighting you for control, end arguments quickly and easily, and buy you that diamond tennis bracelet you have had your eye on. **This book will make you more popular than you can imagine** (well, with guys anyway), and transform a dull, boring relationship into a lively, fun one with lots of romance and affection for both of you.
