Becoming a Critical Thinker (Master Student) Vincent Ryan Ruggiero

Becoming a Critical Thinker breaks up critical thinking into a series of cumulative activities, taking a "student-as-consumer-of-information" perspective that encourages students to apply the skills outlined to their own lives. This unique approach has made this text a staple of many critical thinking courses. The Fifth Edition strengthens the connection between critical thinking and career preparation with new material throughout the text that focuses on communication and the evaluation of evidence in the workplace. A new section in Chapter 6 called "Thinking Critically about Careers" addresses practical ways to apply critical thinking to career decisions. With the goals of improving students' sense of self-empowerment and their ability to communicate effectively in any situation, this text helps create a flow from the fundamentals of thinking to the exploration of arguments and evidence. A concise structure makes the text a useful supplement to any student success course.
